

## Reindeer Craft How-To

Today for art time, we made Rudolph the Red Nose Reindeer! Here is an outline from start to finish if you would like to make one with your child!

1. Stick each antler on both sides of the reindeer's head
2. Stick the red circle, which is the nose, in the middle of the head
3. To keep Rudolph warm, take the red scarf and place it on Rudolph's neck
4. For the final step, use Tacky glue to glue each of the eyes on the head- one on each side

This craft is to allow the students to have a brain break during the day. Because it is so close to Christmas, I chose Rudolph for the students to make! I purchased the pack at Hobby Lobby. There are others to choose from, as well. There is a tree, a snowman, and an ornament! Hobby Lobby has a variety of other crafts for you and your child to make together.
