

# Comparing Prices to Get the Best Deal!

On October 17, our students are setting up their own grocery stores to sell their most favorite food items! Stores include Harps, Wal-Mart, and Kroger. This is a chance for you as parents to compare your favorite brands of food to other stores!

As they are selling these items, they will be learning the basic concepts of how the economy works, supply and demand specifically. With this fun activity, your child will be able to understand how to compare prices and get the best deal. This is a win-win deal for you as parents, as well! Some come out on October 17 to support your child and other students so they can become great citizens of the community!
