Educational Software Write Up

Evaluators: Teagan Russell, Madison Martin

Title: Filmmaker Pro- Video Editor

Version: 7.0.3

Publisher: Samer Azzam

Target Audience: Ages 4 & up

Use in curriculum: This app would be great for group projects in which you can incorporate a video. Such as making a movie for a science project.

Cost: Free, in-app purchases include 12 months for $35.99, 1 month for $5.99, and a one-time purchase for $69.99

Describe the software: A video app, that allows you to edit videos, add audio, text, and illustrations.

Describe your impressions on the software: When first looking at the app, nothing stood out to us on the main screen. It didn't seem as if the bells and whistles were there like we wanted them to be.

Does it pass APPS? Yes
