Educational Software Write Up

Evaluators: Teagan Russell, Madison Martin

Title: HOMER Reading: Learn to Read

Version: 6.6.2

Publisher: HomerLearning, Inc.

Target Audience: Ages 4 & up

Use in curriculum: This app is a great tutorial app to use within the classroom time. This app would help students greatly while learning to read in lower grades.

Cost: Free for 30 days, $7.99 a month afterwards.

Describe the software: "Give your child a personalized learn-to-read program. HOMER Reading is proven to increase early reading scores 74%. Enjoy 1000+ of lessons and 200+ stories for kids 2-8."

Describe your impressions on the software: We enjoyed how it took the intake of the child whenever you first install and open the app. With the information that you provide, they specialize the lesson for your child, and they will tell you what reading level your child will start with in the app. We also enjoyed the security that they had in place to make sure that children do not purchase things by accident.

Does it pass APPS? Yes.
