<u>Educational Software Write Up</u>

Evaluators: Teagan Russell, Madison Martin

Title: Total Recall

Version: 5.0

Publisher: Michel Neuhaus

Target Audience: Ages 4 & up

Use in curriculum: Can be used for all subjects. Since it's sort of like a graphic organizer (like inspiration,) it can be used to keep up with information, or help plan out a project, paper, etc.

Cost: Mind Map Unlock: $1.99

Describe the software: "Total Recall is the simplest and most elegant mind mapping solution on the iPhone and iPad. You will instantly create beautiful mind maps and share them with colleagues and friends." – App Store

Describe your impressions on the software: The app itself seems bland. There are not many buttons, and it doesn't seem like it would be fun to play around with. After playing around with it a little bit, you finally realize how the controls work, even though there are not that many. Since there are not a lot of bells and whistles, we believe that it would be a great app for younger students.

Does it pass APPS? Yes
