Clips Synopsis

How To: Pledge of Allegiance

This how-to Clips video was created to assist students in learning The Pledge of Allegiance. This video, and lesson, will be used with the National Symbols lesson, using BrainPOP! The standard for this activity is C.2.1.1, which states “Describe state and national symbols and patriotic songs.” This how to video will help students learn the words to the Pledge of Allegiance, along with what they do with their hands throughout. In the video, I will say one line of the Pledge, leaving enough time for the class to recite the words. This video will be used as a reference in the future. The students will have access to this video at all times.
