

Mini Lesson #2

Grade Level: 1st

Topic: Creating Rhythmic Patterns

Standard: CR.2.1.2- Create short rhythmic patterns.

Tools: VR Goggles & iMovie

Synopsis: Using the VR Goggles, students will log onto Playthings, a musical VR playground. In this, students have the opportunity to explore the playground, and play around with the different sounds, in a fun environment. Students will individually use the instruments in the game to create a short rhythmic pattern. Students will then work with a partner to create an iMovie including both of their rhythmic patterns. In this video, they should also include their names, favorite food, color, along with one fun fact about each of them.
