Publisher: Canva Pty Ltd

Target Audience: Ages 10+

Curriculum(s): none (could be applied to any curriculum)

Cost: Free to download, but Canva credit for \$1.99- \$10.99

Description: Canva is an app that focuses on making flyers, posters, presentations, and so much more. To begin, you go through a tutorial on how the app works and then you try to do it yourself. Everything is in order of how you do it, so you start with choosing a template or blank slate. On the side of the page, there are options for images, backgrounds, text boxes, and stickers. All of it is customizable and students can individualize each of their own projects.

Impressions: We really love this app for both the student and the teacher. It is so easy to use and makes such clean work. All you have to do is select a template and put in your information. Students could use this app to help with a presentation, club flyer, or project. Even though it is not education based, it can enhance the classroom with all its possibilities.
