

# Interdependent Relationships in Ecosystems

**K**

What I already know

The four types of ecosystems are Deserts, Ocean, Forests, and Tundra.

Oceans are full of water for sea animals.

Deserts are hot and dry.

Forests are wooded and grassy areas.

**W**

What I want to know

What kind of animals live in a tundra?

What kind of animals live in forests?

What kind of animals live in the desert?

What kind of animals live in the oceans?

**L**

What I Learned

Ocean Animals

Tundra Animals

Forest Animals

Desert Animals
